

LEGISLATIVE ACTION NETWORK WEEK #17  
APRIL 27-29, 2009

*Paulette Vandegriff, LAN Coordinator*

As I'm sure you know byknow, there will be a special session. The budget negotiations fell apart amid lots of finger pointing and name calling.

While the governor calls the special session, he can't control the contents, so there are many scenarios that may unfold. Failed bills can be brought back, bills that passed during the session can be amended, new legislation can be proposed.

The special session will likely be called after the June revenue forecast and a budget must be adopted by June 30th.

There will be no further LAN weekly updates until the special session and only then if LWVIN priorities are involved.

Thank you for your interest during the past four months.

***Remember-Democracy is not a spectator sport.***
