

LEGISLATIVE UPDATE March 12 thru 16, 2007
FROM **Paulette Vandegriff, Legislative Action Network**

The Legislative Priorities of the LWVIN are slowly disappearing from the current session of the General Assembly. We will continue to monitor reproductive rights, election and voting system, tax and health issues. The challenge now will be tracking vehicle bills and strip and insert language.

HB 1808 Voting Systems has been assigned to the **Senate Committee-Local Government and Elections**. It has not been scheduled for a hearing. **Kudos** to the **League of Women Voters of Montgomery County** for contacting their legislators requesting HB1808 be given a hearing, for forwarding their requests to the LAN coordinator and for forwarding the legislators reply.
